DETAILED ACTION

1. Claims 1-23 are allowed.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

Please amend the specification page 1 as attached.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for Allowance:

Examiner finds Applicant's arguments submitted in the Appeal Brief filed on 11/18/2005 to be persuasive.

Notably, regarding claim 1, none of the cited prior art references discloses or render obvious the claimed method for routing data packets to

multiple partitions within a single end node. Assigning a range of local identification addresses to the channel adapter port in an end node and bits are assigned within the local identification addresses to specify which of several partitions within the end node is being addressed. These features are enabled at least on pages 23-24 (fig 8) of Applicant's specification.

Claims 2-8 depend from claim 1, and are thus allowed for the same reasons.

Claim 9 presents an apparatus for performing the same method as claim 1 and is thus allowed for the same reasons.

Claims 10-16 depend from claim 9, and are thus allowed for the same reasons.

Claim 16 presents a system for performing the same method as claim 1 and is thus allowed for the same reasons.

Claims 18-23 depend from claim 16, and are thus allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments Statement of Reasons for Allowance."
